

## COMPARING

# Propensity vs Rollworks

Ready to discover why companies are choosing Propensity over ABM platforms like RollWorks?

Propensity is the only account-based marketing (ABM) platform built for small B2B growth teams. We make it easy to use intent data to create lists of in-market accounts and contacts, warm those contacts up with omnichannel ABM campaigns, and hand off lists of highly engaged contacts to sales. With the ABM Outbound Funnel in place, you'll create an automated, always-on, ABM engine that produces a flow of MQAs and 5X sales engagement.

## Why Propensity?

When you choose Propensity, you choose simplicity and a cost-effective platform that works! And you choose ABM as your best-performing growth engine.

- Easily launch ABM campaigns
- Measure engagement and ROI
- Integrate and score accounts and contacts to your CRM
- Implement in 1 hour
- No commitment to multi-year agreements
